

RAJ RAWAT

FOR BVSD BOARD OF EDUCATION, DISTRICT E

PASSION ★ INNOVATION ★ AUTHENTICITY

MY EXPERIENCE

I solved billion dollar problems for Fortune 500 companies like IBM for twenty years. I've been speaking and teaching classes on entrepreneurship, business, and leadership for years now in college campuses like CU and am "Executive in Residence" at Colorado School of Mines, inspiring thousands of students to commit to their futures. I've also written a successful book called *Find Your Everest* that has already transformed thousands of people's lives. My commitment to serving the potential in every human being led me to run for BVSD Board of Education to address the needs of our students from a systematic level.

VISION FOR TRANSFORMATION

My vision is a BVSD where all students can confidently innovate through any life situation and live passionate lives. Our engaged students will see education as the shining path to their dreams, aspirations, and goals.

INSPIRED TO TRANSFORM OUR SCHOOL SYSTEM

BVSD's all-inclusive budget exceeds **half a billion dollars** a year for a student population of 30,000 kids. Granted that this is coming from many buckets like taxes, mills, bonds, and grants, and some of it is designated for specific expenditures, but needless to say, we are an incredibly abundant school district with an opportunity to take our work to the next level! BVSD schools are not dreaming big or setting goals that are worthy of us.

LET'S SET GOALS FOR BVSD THAT ARE WORTHY
OF OUR CHILDREN!

STEPS TO ENABLING ENGAGED STUDENTS

1 Power-up Student Motivation.

Enable more sleep, inspire through real life stories, bring speakers in to inspire, assign mentors to guide, and connect curriculum to passions. Let's dream, be agile, reduce class time, and boost passionate performance.

2 Transform Teachers' Lives.

To make teachers enthusiastic and engaging for our students we must help them become more passionate people by giving them sabbaticals and seed funding for what drives their passion and unique genius. Passionate teachers inspire and captivate students to apply themselves and become passionate people.

3 Let's Become the Best School System We Can Be.

Dream big! Set benchmarks for the most satisfied teachers, engaged students to create scholars, athletes, artists, and other engaged minds. **We can do this!**
